

# Mengjie Gong

[gongmj@mail2.sysu.edu.cn](mailto:gongmj@mail2.sysu.edu.cn) | +86 18982696930

Personal Academic Website: <https://mengjiegong70-hash.github.io>

## Education and work experiences

---

### Sun Yat-Sen University

M.Eng, in Surveying and Mapping Engineering

*Sept. 2024—Present*

- Average Mark: 89.03/100

### Shandong University of Science and Technology

B.Eng, in Surveying and Mapping Engineering & B.A, in English

*Sept. 2020—June. 2024*

- Ranked **1st** in the comprehensive evaluation for postgraduate recommendation
- Average Mark: 88.92/100

## Publications

---

**Gong, M.**, Xin, R., Yang, J., Wang, J., Li, T., & Zhang, Y. (2024). Spatio-temporal dynamics and recovery of commuting activities via bike-sharing around COVID-19: A case study of New York. *Journal of Transport Geography*, 121, 104031. (Q1, IF=6.3)

**Gong, M.**, Chen, P., Liu, J., Jian, I. Y., & Xin, R. (2025). How does the urban environment shape noise perception? evidence from a longitudinal study in New York City. *Urban Informatics*, 4(1), 24.

Chen, P., **Gong, M.**, & Li, S. (2026). The cost-balanced accessibility (CBA) model: a new framework for measuring urban accessibility with multi-objective considerations. *International Journal of Geographical Information Science*, 40(5), 1293-1316. (Q1, IF=5.1, Supervisor is 1st author)

Chen, P., **Gong, M.**, et al. (2026). DML-Geo: An Ensemble Double Machine Learning Framework for Estimating Spatially Heterogeneous Causal Effects. *International Journal of Geographical Information Science*. (Accept, Q1, IF=5.1, Supervisor is 1st author)

Xin, R., **Gong, M.**, Yang, J., Li, X., Ai, B., & Zhu, R. (2026). Carbon emission reduction of bike-sharing around the COVID-19 pandemic based on fine-grained recognition of riding activities. *Journal of Cleaner Production*, 540, 147425. (Q1, IF=10.0, Supervisor is 1st author)

### Under Review:

**Gong, M.**, Chen, P., et al. Toward Sustainable Urban Governance: Measuring Economic Vitality via Mobility and Place-Based Commercial Ratings. *Sustainable Development*. (Q1, IF=8.2)

### In Preparation:

**Gong, M.**, Chen, P., et al. Spatiotemporal Dynamics and Optimization of Accessibility to Elderly Care Services under Alternative Development Scenarios.

### Other Publications:

Ma, Y<sup>1</sup>., Chen, P<sup>1</sup>., **Gong, M.**, Cai, Y., & JiaN, I. Y. (2025). The First Seasonal Green View Index Mapping Dataset across Chinese cities powered by deep learning. *Scientific Data*, 12(1), 1356. (Q1, IF=6.9)

Li, S., Chen, P., Hui, F., & **Gong, M.** (2024). Evaluating urban vitality and resilience under the influence of the COVID-19 pandemic from a mobility perspective: A case study in Shenzhen, China. *Journal of Transport Geography*, 117, 103886. (Q1, IF=6.3)

Qin, Y., Ma, Y., **Gong, M.**, Li, S., & Chen, P. (2025). Investigating the Serviceability of Urban Green Spaces from a Spatial Perspective: A Comparative Study Across 368 Cities on the Chinese Mainland. *Land*, 14(4),

711. (Q2, IF=3.2)

- Mei, Y., Wang, S., **Gong, M.**, & Chen, J. (2024). Urban traffic dominance: a dynamic assessment using multi-source data in Shanghai. *Sustainability*, 16(12), 4956. (Q2, IF=3.3)
- Yang, Z., Cai, Y., Chen, P., **Gong, M.**, Li, P., & Liu, J. (2026). Visual hazards in the urban environment: Unveiling the association between sun glare and traffic safety using street view data. *Information Geography*, 100051.

<sup>1</sup> Co-first author: These authors contributed equally to this work.

## Research Experiences

---

### ➤ Sun Yat-Sen University

**Master's Research Advisor:** Pengfei Chen, Associate Professor

*Sept. 2024—Present*

- **Research focus:** Spatial Accessibility Modeling, Causal Inference, and Environmental Health Exposure Analysis
- Participated in advisor-led and research group projects, including:
  1. General Program of Guangdong Natural Science Foundation: Spatiotemporal evolution and resource optimization of elderly care service accessibility under different socio-economic development pathways in the Guangdong-Hong Kong-Macao Greater Bay Area.
  2. SYSU Medical-Engineering Integration Seed Fund: Urban eye-health environmental exposure assessment and intervention mechanisms integrating remote sensing and GIS.
  3. Industry Project: Multi-scale residential unit segmentation using urban big data.
  4. Industry Project: Urban eye-health risk indicator computation and street-view visualization mapping.
- **Academic service:** Reviewer for **Journal of Transport Geography (Q1)**, **Humanities & Social Sciences Communications (Q1)**, **EPJ Data Science (Q1)**, and **Discover Cities**.

### ➤ Shandong University of Science and Technology

**Undergraduate's Advisor:** Rui Xin, Associate Professor

*Sept 2020—June. 2024*

- **Research focus:** Trajectory Mining and Human Mobility Analysis
- **National Undergraduate Innovation Training Program:** Principal Investigator, “Story Map and Novel Pan-map Research Supported by Narrative Visualization and Metaphorical Thinking”; rated Excellent Completion.

## Conference

---

- Global Smart Cities Summit cum The 4th International Conference on Urban Informatics (GSCS & ICUI 2025), **How Does the Urban Environment Shape Noise Perception? Evidence from a Longitudinal Study in New York City (Best Conference Paper Award)**, Aug 2025
- The 20th Annual Conference on Theoretical and Methodological GIS, **A Novel Framework for Measuring Spatial Accessibility Considering Multiple Objectives**, Nov 2025

## Awards and Honors

---

### Selected Competition Awards

- First Prize, National College Student Statistical Modeling Competition
- First, Second, and Third Prizes, GeoScene GIS Contest
- First Prize & Most Market Potential Award, The 6th China Siwei Cup International Competition on High-Resolution Remote Sensing Image Interpretation
- Second Prize, Asia-Pacific Mathematical Contest in Modeling (APMCM)

- Second Prize, National College Student Electrical Engineering Mathematical Modeling Competition
- Second Prize, National English Competition for College Students (NECCS)
- Third Prize, National College Students' Physics Experiment Competition (CUPEC)
- First Prize(Shandong Province), China University Business Elite Challenge (CUBEC)
- Second Prize (Shandong Province), China Undergraduate Mathematical Contest in Modeling (CUMCM)

### **Honors**

- Outstanding Graduate of Shandong Province
- Top 10 Outstanding Students of Shandong University of Science and Technology (Ranked 2nd)

### **Scholarship**

- First-Class Academic Scholarship, Sun Yat-sen University
- First-Class Academic Scholarship, Shandong University of Science and Technology

### **Technical Skills**

---

- **Programming:** Python, MATLAB, R, ArcGIS, QGIS, 3ds Max, SQL, SPSS, MS Office
- **Machine Learning Framework:** Pytorch, TensorFlow
- **Analytical Skills:** Statistical Analysis, Machine Learning and Computer Vision, Spatial Analysis and Visualization, Web Data Collection
